

Calibration: Consists of 3 pieces. Outer plastic piece, inner plastic piece, and a piece of paper in between. Optional-Glass inner piece.

Lock Nut - HDPE Plastic Standard, Optional Aluminum or PVC lock nut available.

Bushing—Aluminum can be 2" or 1.5". If the gauge is over 77", only 2" is available. Aluminum is the only material bushing available for this model.

Internal Rods—Aluminum standard. Due to floatation, other options are not available.

Notes: Other materials on this Gauge—The gasket is duro-nitrile (optional viton) and the red indicator is HDPE Plastic.

Plastic Float—Polypropylene plastic is the standard material for gauge sizes 6" to 76". From 77" to 170" the float changes to poly coated cork.
